

# AI HACKATHON: WINDWARD CODE WARS

Get ready to have the most fun you've ever had on campus! Go head-to-head with students around the world in this annual AI game. Compete for killer prizes in your strongest language (Java, Python, C#, or Microsoft C++)!

**WHO :** Teams can be 1 - 5pp., full-time undergraduate and/or graduate students - all skill levels and backgrounds are welcome: strategy and skill are rewarded, and the winning code isn't always the cleanest!

**WHEN** 10:00am - 6:00pm (7 PM for finalists) local time at your institution on Superbowl Saturday, February 6, 2016 (we start hourly per time zone). Final code is run overnight and recorded, then posted Sunday 11AM MST.

**WHY :** 'Cuz it's brilliantly fun. There's no info in advance, so it won't take up your study time. Did we mention free food and amazing prizes?

**HOW :** Go to [codewar.windward.net/](http://codewar.windward.net/) or talk with your favorite professor about sponsoring.

Previous year prizes include: Free HP laptop for all first place winners; top winners per school get 2 free copies of any 2 JetBrains products; **free lunch for all competitors**; and \$25 giftcards for Best Quote, Best Image, and Best Selfie submitted after game day.
